

Governance Intelligence® Pulse Audit

It could be done annually, quarterly, monthly, or whenever it suits. Offering instant insights into a range of key governance issues, enables prompt interventions of the correct actions, before the proverbial hits the fan or there is a please explain to your stakeholders. Emerging issues are identified more quickly, thus allowing the 'best' remedial actions to be considered and then applied, all in a timelier manner. Once this has been undertaken, it is easy to do another audit to check that those remedial actions are working and how well.

Release of new Audits is ongoing. Please contact Enterprise Care to discuss how we can assist your organisation:
