

Partners

Governance Intelligence® Partners

Governance Intelligence® develops business partnerships with leaders in their sectors. We welcome successful specialist experts to partner with us and grow mutually beneficial opportunities.

Governance Intelligence® acts as the critical independent third party for our Partners in all of their governance audit assessments and evaluations. In addition our network offers experts providing specialist services to users of our audits. Working closely with all of our partners, we are confident that the appropriate solutions are not only available, but are delivered to all clients.

Each Partner who sells the Governance Intelligence® Pulse, Express and Whole-of-organisation Audits to their networks of advisors and organisations helps them gain a competitive advantage in their marketplace.

This network includes individuals who provide management and consulting services to organisations committed to high performance and sound governance practices.

Partner Benefits

- Offers excellent business opportunities through building relationships and enhancing exposure to a broader range of professionals and key executives
- Facilitates the development of business networking
- Drives greater exposure within selected market sectors or community groupings
- Being professionals with prominent levels of knowledge and well informed and carefully developed expertise enables the building of trusted advisor relationships
- Agents are geared to increase visibility, build collaboration, and facilitate business with
- Advisory bodies to directors and or senior executives

We have a wide range of options that can often be customised to the needs of the Agent's specific business requirements.
